HOW THE PROCESS WORKS

Once we have confirmed the number of songs to be mastered and your final mastering cost, I will schedule the delivery date for your project. My turnaround time is typically 1 to 3 days for singles and 1 to 2 weeks for albums.

I go into detail regarding mix prep on my website's FAQ page, but in general I can work with any unlimited lossless file that isn't clipping. Please make sure you've triple checked your bounces for any errors before you upload them here:
